Searching...

From the main *welcome page* you can select ebooks from the alphabetical list, or go to *all books* to view all listed within *MyiLibrary*. You can also browse ebook titles from the individual publishers list. Selecting 'my content' text takes you back to the search page. For a quick search enter search terms in the *quick search content box*, you can select a drop-down field to search full text, keyword, title, isbn or author. If you want to search for an exact phrase, use *quotation marks* e.g. "events management". The *advanced search* option provides for more complex searches which can be developed using the different search fields. To read an ebook, click on the *title* or 'open now' text. The ebook will open in a new window; you can continue to search within the ebook by selecting the *search tab*. There is also the option to select the *table of contents*, *notes* or *bookmarks* tabs and use the *online dictionary*.

Saving or exporting your results...

You can print, save or email individual pages. If you sign up for an account with *MyiLibrary* you can save selected records to a personal account and create notes/bookmarks. You can also export a record to our reference management software by selecting the *Refworks* option. This stores your references and helps you keep track of your research. If using this for the first time you will need to set up an account using your Athens username and password. *Refworks* is then available on or off campus.

The screenshot shows the MyiLibrary interface. At the top, there is a search bar with the text "quick search all my content" and a dropdown menu set to "Full Text". Below the search bar are links for "advanced search" and "help", and a "search" button. The navigation bar includes "site navigation", "other tools", "my account", "Login to my Account", "Sign up for account", and "Logout of MyiLibrary". The main content area is titled "Search Results" and shows search terms: "Displaying All Books" and "Results 131 - 140 of 156 in 0 seconds". There are options to "Results display: Brief | Detailed" and "Show 10 | 25 | 50 results per page". A book result is shown with a cover image and the title "Sport and Exercise Physiology Testing Guidelines: The British Association of Sport and Exercise Sciences Guide, Volume II: Exercise and Clinical Testing" by Edward M. Winter, published by Taylor & Francis in 2006. There is an "Open now >>" link and a description: "[Description] Sport and exercise physiologists are called upon to carry out physiological assessments that have proven validity and reliability, both in sport-specific and health-related contexts. A wide variety of test protocols have been developed and refined. This book is a comprehensive guide to these protocols and to the". On the right side, there are options to "name this search...", "save search", "export search", "sort these titles..." (by date published or by title), and "refine your search..."
